Fracture stability assured

Optimal stability due to large rod and screw diameter
Excellent torsional stability

ROD CLIP CLAMP

- > Quick, stable connection of two rods in all planes
- > Strong radiolucent rod in four different lengths

MULTI-SCREW CLAMP

- > Parallel screw positioning in T- or straight clamp configuration for later exchange with Orthofix External Fixators
- > Four possible connections for best placement of Rod Clip Clamp

SCREW CLIP CLAMP

- > Free pin placement for rapid assembly of desired frame construction
- > Easy, fast connection of 6 mm screws
- > Transfixing pin clamp also available for use in ankle-spanning configurations
